

## **The Gold Medal for Innovation in Daffodil Breeding**

This Gold Medal, The Innovation Medal, is to be awarded for the most innovative new daffodil exhibited at the ADS National Show. The winning variety should demonstrate significant novelty, advance or break-through qualities which could be expected to influence future development of the genus for commercial or exhibition purposes.

The Gold Medal will be available for award at each National Show and Convention at the discretion and unanimous vote of the President's selected panel of expert judges.

The Gold Medal will be awarded to the hybridizer and raiser (or, if deceased to the principal stockholder or exhibitor) of the winning daffodil provided it fulfills the following conditions:

- It must be exhibited at an ADS National Show and Convention, either in competitive classes or in Bulb Nursery or private displays.
- It must be "new" in that its name has not been registered more than 5 years previously.
- If an unregistered seedling is chosen for the award the breeder/stockholder must undertake to register it as a cultivar with The Royal Horticultural Society as soon as possible after the judges announce their decision. Ideally, a name would be chosen before the end of the Convention, perhaps from a suggestions box placed in front of the Award winning bloom on the honors table.

### **Innovation Medal Awardees 2004 to Present:**

2004 -- Leone Low for MR-OO, 7 Y-GYO ('Milan' x 'Rikki')
